Research

Ph.D. student at The Chinese University of Hong Kong, Shenzhen, advised by Prof. Haizhou Li. My research focuses on speech language models, expressive speech generation, personalized language models, user simulation, and conversational AI.

Education

Ph.D. The Chinese University of Hong Kong, Shenzhen, Computer Science · Advisor: Prof. Haizhou Li
Shenzhen, China
Sept 2024 – present

B.Eng. Zhejiang University, Biosystems Engineering
Hangzhou, China
Sept 2020 – June 2024

- GPA: 3.96/4.00 (89.98/100); rank: 4/64.
- Outstanding Graduate of Zhejiang University, 2024.
- First-Class Scholarship (top 5%), 2021.

Publications

Bridging What the Model Thinks and How It Speaks: Expressive Speech Generation via Self-Aware Intent-Realization Alignment Apr 2026

Experience

Tencent Multimedia Lab, Research Intern · Speech Language Model Group

Shenzhen, China

Text data preparation for continual pre-training of Speech Language Models.

July 2025 – present

- Designed a distributed multi-node data pipeline with Ray for 100+ TB of raw text.
- Covered language filtering, normalization, quality scoring, domain classification, stratified sampling, and MinHash-LSH deduplication.
- Prepared text corpora for continual pre-training of interleaved text–speech generation models.

Teaching

- **Teaching Assistant**, Reinforcement Learning, School of Data Science, CUHK-Shenzhen · Spring–Summer 2025.

Honors

- **Outstanding Graduate of Zhejiang University**, 2024.
- **First-Class Scholarship (top 5%)**, Zhejiang University, 2021.

Skills

Research: Speech Language Models, Expressive Speech Generation, Personalized LLMs, User Simulation, Conversational AI

Engineering: Python, PyTorch, Ray, Distributed Data Processing, Linux, Git, LaTeX, MaxCompute

Languages

Mandarin Chinese: Native

English: Fluent
