Research

Ph.D. student at The Chinese University of Hong Kong, Shenzhen, advised by Prof. Haizhou Li. My research focuses on speech language models, expressive speech generation, personalized language models, user simulation, and conversational AI.

Education

Experience _____

Tencent Multimedia Lab, Research Intern · Speech Language Model Group
Building post-training text data infrastructure for speech language model pre-training.

- Designed a distributed multi-node data pipeline with Ray for 100+ TB of raw text.
- Covered language filtering, normalization, quality scoring, domain classification, stratified sampling, and MinHash-LSH deduplication.
- Prepared text corpora for continual pre-training of interleaved text-speech generation models.

Shenzhen, China
July 2025 – present

Teaching _____

- **Teaching Assistant**, Reinforcement Learning, School of Data Science, CUHK-Shenzhen · Spring–Summer 2025.

Honors _____

- **Outstanding Graduate of Zhejiang University**, 2024.
- **First-Class Scholarship (top 5%)**, Zhejiang University, 2021.

Skills _____

Research: Speech Language Models, Expressive Speech Generation, Personalized LLMs, User Simulation, Conversational AI

Engineering: Python, PyTorch, Ray, Distributed Data Processing, Linux, Git, LaTeX, MaxCompute

Languages _____

Mandarin Chinese: Native

English: Fluent
